

## Control of Asbestos Policy Statement

Speciality Steel UK Limited trading as 'Liberty Speciality Steels' complies with UK legislation for the control of asbestos at work.

Our sites have been in operation for 170 years therefore our buildings and equipment contain asbestos containing materials (ACMs). We have a comprehensive Asbestos Register that contains the details of all known ACMs on our sites.

Working with ACMs – our Engineering Standard 23 details how we manage and control ACMs at work and how we comply with the 'Control of Asbestos at Work Regulations 2012'

PRODUCTS – Steel produced at our sites does not contain any ACMs.

Sale of Equipment – Any equipment that contains ACMs cannot be sold and we either remove any asbestos before sale or dispose of the equipment using the correct disposal method.

For further information contact the Environment and Energy Department.
